# DECISION POINT Alcohol and Drug Treatment Services

## Vision

It is our vision that persons affected by alcohol and drug abuse receive the highest quality and most effective care available. Decision Point is committed to serving as a leading resource in the treatment, intervention, and prevention of substance-related disorders. We pledge to continuously strive to develop and implement treatment methods that are evidence-based, to respond to the individualized needs of our client population, and to provide care that offers the greatest opportunity for success.

## MISSION

To provide the highest quality drug and alcohol treatment, intervention, and prevention services.

## PHILOSOPHY

We believe alcohol and drug addiction is a chronic illness and that recovery involves much more than the promotion of simple abstinence. Decision Point utilizes a systemic approach to address the scope of substance related disorders focusing not only on the individual seeking help, but also the environment in which they interact. We firmly believe that with help, people do recover

## Adolescent Outpatient Services

The Adolescent Outpatient Treatment is designed to provide comprehensive services in a less restricted environment. The program is designed to continue for up to four (4) months.

The treatment provided is flexible and is conformed to the individuals needs. The actual length of treatment and services utilized are determined by the individuals needs.

Treatment services will be provided by licensed health care professionals, certified alcohol and drug counselors, counselors in training, and other staff who have specialized training.

The Outpatient services are provided Mondays through Fridays from 10:00 AM to 6:30 PM. All group sessions are scheduled from 4:00 PM to 6:30 PM

## The Outpatient Services consist of three components:

- 1 Intensive Outpatient Treatment
- 2 Intermediate Outpatient Treatment
- 3 Basic Support Treatment

## Treatment Interventions include but not limited to:

- 1 Individual Sessions
- 2 Group Sessions
- 3 Psychoeducational Groups
- 4 Family Sessions
- 5 Family Education
- 6 AA/NA meetings
- 7 Random urine drug screens

## Parent/Guardian participation is mandatory.

Addiction affects the whole family and it is necessary to have the family involved in the treatment process. The focus of family therapy is to:

- A. Educate family members about addiction
- B. Help families readjust their patterns of interacting.
- C. Motivating families to establish productive changes in the family through communication and health boundaries.

## Assessment and Evaluation

Assessment and evaluations are done to determine the most appropriate placement for clients. Following screening and assessment clients may be:

- A. Admitted into an outpatient level of care
- B. Referred for further evaluation before admission
- C. Referred for detoxification at an appropriate agency
